PROFESSIONAL PROFILE

I worked in the Information Technology industry for the past fourteen years. Much of this time was spent on active duty in the US Air Force. My time in the military provided me with a global worldview and a desire to learn more. After transitioning out of the service, I decided to pursue my dream of becoming a Full Stack Software Developer.

Woz-U has provided me with a tremendous opportunity to pursue my life's dream and acquire the right skills needed for me to be successful. Having a bachelor's degree and an unparalleled passion to make my dreams a reality, has given me a renewed sense of purpose at this pivotal point in my life. I'm open to software development opportunities locally and abroad.

TECHNOLOGY SKILLSET

- REACT
- REDUX
- ANGULAR
- DRUPAL
- RUBY ON RAILS
- MONGO DB
- APACHE CASSANDRA
- NODE.JS
- JAVA
- PYTHON
- JAVASCRIPT
- MYSQL
- POSTGRESQL
- JPA
- DOCKER
- SPRINGBOOT

CURRENT PROJECTS

DOMQUEST PROJECT

Technologies Used: CSS, HTML, Materialize

GitHub Link: <https://github.com/robertstania/Personal-Project-DomQuest>

Live Site: <https://robertstania.github.io/Personal-Project-DomQuest/>

POKEMON PROJECT

Technologies Used: Materialize, Node, Knex, Express, PostgreSQL, EJS

GitHub Link: <https://github.com/robertstania/Personal-Project-Pokemon-Node>

Live Site: <https://personal-project-pokemon-node.herokuapp.com/pokemon>

TRAVEL APP PROJECT

Technologies Used: Bootstrap, bcrypt, Express, Node, PostgreSQL

GitHub Link: <https://github.com/robertstania/Personal-Project-Travel-App>

Live Site: <https://personal-project-travel-app.herokuapp.com/users>

EDUCATION

FULL STACK WEB DEVELOPMENT CERTIFICATION

GALVANIZE | GRADUATED FEB 2018

B.S., COMPUTER INFORMATION SYSTEMS

PARK UNIVERSITY | GRADUATED JUN 2012

B.S., SOFTWARE ENGINEERING

ARIZONA STATE UNIVERSITY | EXPECTED GRAD DEC 2022

PROFESSIONAL EXPERIENCE

WEB APPLICATIONS DEVELOPER

GRYPHON TECHNOLOGIES | DEC 2019 - PRESENT

Developed web applications and web services using .NET/C#. Conducted daily stand-ups, backlog refinements, and sprint planning sessions, while displaying an active role in a cross-functional team. Managed web security vulnerabilities by performing troubleshooting for front-end coding/browser compatibility issues and implementing appropriate solutions.

Supported research in areas of embedded software engineering, binary code analysis, and software security testing. Translated designs into working code by creating themes, templates, and skins for DNN (DotNetNuke) Content Management System using CSS, Bootstrap, Vue.js, and React.

PROFESSIONAL EXPERIENCE

WEB DEVELOPER

WOZ - U | MAY 2019 - DEC 2019

Experience in evaluating code and providing feedback, supporting a coding slack channel focused on resolving coding issues for clients, unit testing and (agile) scrum project management. Technical areas include: CSS; includes: CSS Grid, Flexbox, and Bootstrap 4.

React; includes: routing, ref, state & props, redux, axios, Databases; includes: MySQL, Postgres, MongoDB, Cassandra, Java language basics, Java with Spring Boot; includes: Web, JPA, Thymeleaf, Java unit testing, Microservices; includes: docker, message queue, DevOps; includes: Jenkins, Docker, DevOps fundamentals.

DRUPAL CONTENT DEVELOPER

ARIZONA STATE UNIVERSITY | DEC 2018 - DEC 2019

Constructed and deployed on-brand website development projects concurrent with Drupal Content Management System (CMS)/Panoply AI directives. This involved creating new site functionality within the Pantheon Dashboard, troubleshooting/fixing bugs, writing scripts/code, and creating/updating reports.

Sustained and augmented website data which included data entry, digitizing archives, and transcribing multimedia content. Identified and provided troubleshooting for surrounding UX responsiveness/design. Illustrated design ideas using storyboards, process flows, and sitemaps. Stipulated precise time estimations for work within an agile environment using SCRUM Framework principles.

INFORMATION TECHNOLOGY ANALYST

SERVICES GROUP OF AMERICA | JUN 2012 - DEC 2016

Translated data into actionable information, managed customer expectations, reported analytics solutions, facilitated team interaction, supported team development, communicated with technical and non-technical personnel.

Delivered remote call support, worked on special projects such as UX/UI Design based applications, React/React Native Architecture, Redux Integration, CSS/Flexbox styling, RESTful APIs, collaborated on technology solutions to solve business problems, and work in partnership with users to drive adoption and support of current technology.
